*YOUR
REAL
STORY*

PHOTO AND VIDEO

Our philosophy is simple: we create cinematic, artful imagery while preserving the real, unpolished moments that make your day uniquely yours. Every glance, every touch, every laugh and tear, we capture it in a way that feels emotional, intentional, and true to who you are. Through both photo and video, we turn real moments into timeless memories you'll want to relive again and again, while also documenting the raw in-between moments that mean the most years down the road. The result is a heartfelt, storytelling-driven gallery and film collection that lets you (and everyone you love) experience your wedding exactly as it felt.

Wedding Film

The main wedding film is an emotionally resonate film that captures all the key moments of the wedding day and works them together with beautiful audio and visuals to bring your right back to your wedding day. These range from 7-9 minutes usually.

Raw Footage

When it comes to raw footage, we focus on what you would want to see. This includes the raw footage of the ceremony, speeches, dances, and other key moments. When we do our editing we watch all the clips and any that feel special, emotional, funny, or just something you'd like, we include it

Short Form Edits

The main way we advertise is by creating unique short form edits for Instagram and Tik Tok. We like to include 2-3 for each of our couples! They are super fun to share and enjoy, check our instagram for more inspo!

WHATS NEXT?

1. It all starts with the consultation call! If you haven't already, let's get that scheduled so we can talk over your wedding day!
2. After you book us for your day. We are your people. We start by planning your engagement session! Looking at inspo, planning locations, and ideas to create the perfect session that tells your story.
3. After delivering your amazing engagement photos, we will have at least two calls before the wedding day! One to brainstorm, talk ideas, and start outlining a timeline, and one final call to make sure we have the perfect timeline to capture everything that is important to you. (We are always happy to do more calls if you need!)
4. On the wedding day, we will show up ready to capture all the moments, and help be a buffer between the chaos of the day and you being able to be fully present. Expect to feel like we've been friends for years by the end of the day! We will be looking for the little moments, the memories you will want to hold onto for a lifetime, as well as the big ones. We promise to truly see you and the people around you.
5. After the wedding day, expect your social trailer within 48 hours! After that we will be sitting down to edit the perfect film and curate your gallery. We do all our own editing and it's something we have spent years mastering. All the footage is carefully gone through and put together to create a beautiful film that tells your story fully and in a way that will take your breath away!
